

Do you have Controllership of your Business?

Controllership of your Business = Business Success

From years of consulting experience, we have discovered that a common denominator for your business success is 'Controllership' over your financial information.

Does your business have the 5 basics of the dbsn Controllership program?

1 Profit & Cashflow Projections

Focus on the future and not the past.

2 Identify your Critical Success Factors & KPI Targets

What makes your business tick? Identify your CSFs and monitor and benchmark your business performance.

3 Effective In-House Management Accounting

What you can measure you can manage. Systems to ensure you get the information you want, when you need it.

4 Regular Management Meetings

Quarterly at a minimum. Work on the business, not in it.

5 Action Plans

Don't just talk about it, do it – execute your strategic direction.

In 2010, harness the potential in your business and kick start the year.

Contact Melissa Austin or Jodee Byrne before January 31 for a complimentary 60 minute Controllership workshop for your business.
